

GOULBURN Yurtworks

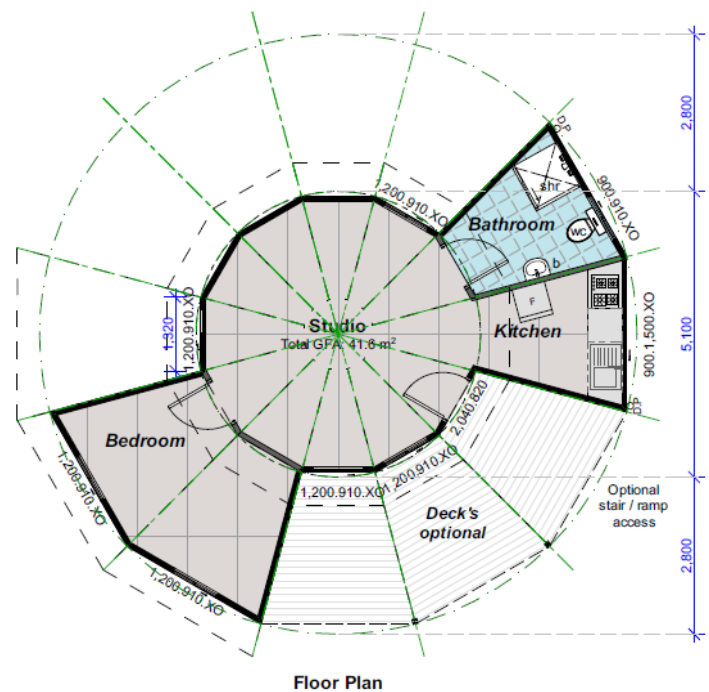

Goulburn Yurtworks will be holding an information session at the Narara Eco Village from 4.30pm on 29th April 2017.

Narara Ecovillage
25 Research Road,
Narara NSW 2250

Cherrie and Bob from Yurtworks will be available immediately after to answer questions or by appointment Sunday to discuss individual project solutions. If interested please contact us asap to book a time.

Yurts are a beautiful, flexible and value for money building solution. They are based around a circular space that can be extended with additional annexes or rooms. The modular design means the layout is flexible and rooms can be added around the core in many different configurations. You can add bedrooms, bathrooms, and kitchen or just extend internal space. You can even add other Yurts connected by covered walkways or add a second story.

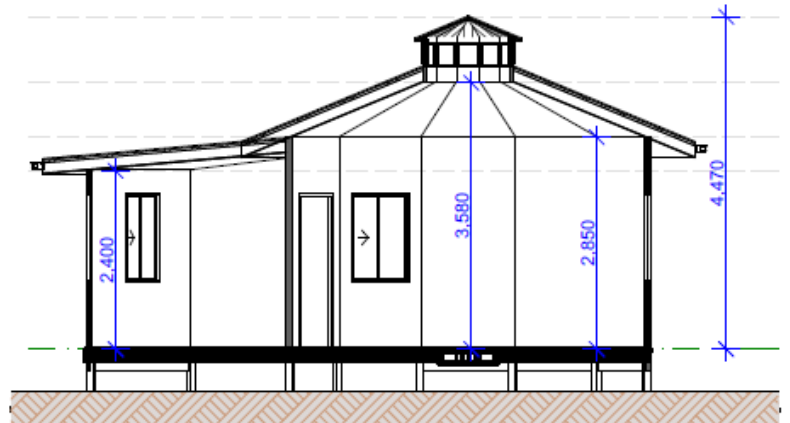

Goulburn Yurtworks will work closely with designers to achieve the highest NatHERS rating possible for a given project.

We can build, deliver and erect a Yurt for you on your property. Alternatively we are happy to deliver an owner builder kit with everything you need including helpful instructions for you or your builder.

For more information please visit our website or contact us.
